REMARKS

This case is a continuation of pending application Serial No. 387,503, filed July 28, 1989 ("the parent case"). The parent case claims priority from original application SN 250,609, filed April 3, 1981, now abandoned. Original application SN 250,609 in turn claims priority from two British applications, GB 80.11306, filed April 3, 1980 and GB 80.18701, filed June 6, 1980.

In this case, applicants have added new claims 31-34 directed to methods of treating human cancers or tumors. None of these claims adds new matter -- the claimed subject matter is fully supported by the specification as filed. See, e.g., p. 1, lines 15-19; p. 4, lines 11-30; p. 6, line 16 - p. 7, line 15; p. 12, lines 29-35; claims 28 and 29 as originally filed.

Consideration and allowance of the pending claims is requested.

Respectfully submitted,
